*I look forward to welcoming my fellow ministers to Abu Dhabi and ADIPEC, as well as the global energy industry, with whom the UAE shares a common goal of diversifying the energy mix to reach our climate ambitions. The critical discussions that will take place at ADIPEC 2022, around the role of oil and gas in the energy transition, are even more important as we pivot to cleaner forms of energy and reduce our carbon footprint. # ADIPEC 2022: BIGGER, BETTER AND SHAPING THE FUTURE OF ENERGY

As the world's most influential gathering of energy industry professionals, ADIPEC 2022, hosted by the Abu Dhabi National Company (ADNOC), will address the key issues surrounding the trilemma of sustainability, affordability, and security of supply.

Strategically taking place ahead of COP27, the event will bring together global policy makers, CEOs, innovators, thought leaders and industry experts to play an important role in developing the ideas and solutions that will shape the industry's response to the realities of energy transition.

ADIPEC not only facilitates high-level strategic dialogues, but will also provide a platform for the global energy ecosystem to collaborate, engage with the latest innovations, create new finance and partnership frameworks, develop actionable strategies and opportunities to unlock the real value of a decarbonised future.

# FIVE REASONS TO VISIT ADIPEC

ADIPEC will give attendees a unique opportunity to network in person with the leaders, innovators, buyers and sellers who are taking the energy industry into the future. Gain an international perspective with energy professionals from 160 countries and join the discussion on creating responsible and resilient energy transition.

## 1 Source Thousands of Products and Services

Attracting more than 2,200 exhibiting companies and 54 NOCs, IOCs, NECs and IECs from around the world, ADIPEC provides an unrivalled opportunity for buyers and sellers to meet, learn, network, do business and source of thousands of products, services, technologies, innovations and new age energy solutions across the full value chain.

## 2 Specialised Industry Zones

Running in parallel, ADIPEC will host four specialised industry zones - Offshore & Marine Zone, Digitalisation In Energy Zone, Smart Manufacturing Zone and the newly launched Decarbonisation Zone, that will provide a platform for new business opportunities across the full spectrum of the energy industry.

## 3 International Perspective

With more than 28 exhibiting international pavilions, ADIPEC provides a platform to energy industry professionals to convene and explore latest developments within the global energy ecosystem.

## 4 Network with the Right Audience

ADIPEC provides an exceptional opportunity to the global energy industry to convene and network with the right audience. 80% of the 150,000 energy professionals convening from over 160 countries are either a decision maker, purchaser or an influencer.

## 5 Join the Conversation Towards Energy Transition

ADIPEC 2022 is facilitating important discussions and will continue to provide a global platform to the energy industry by attracting credible players and advance an equitable and responsible energy transition – one that is flexible and resilient.

# SECURE YOUR COMPLIMENTARY VISITOR PASS

As part of our safe and contactless initiatives, we recommend all our attendees to register in advance through our registration page [www.adipec.com/visreg](http://www.adipec.com/visreg) and print their badge at home.

5

Once you complete these steps, you will receive a confirmation email with your visitor badge on your registered email address.

ADIPEC is helping advance a pragmatic and progressive global energy transition. It plays a powerful role supporting industry as they tackle the dual missions of delivering the world's energy needs of today, while investing in the energy systems of the future.

The 2022 agenda reflects the realities of the changing global energy and geopolitical landscapes, with the energy trilemma of balancing cost, sustainability and security in sharp focus for populations around the world.

When the global industry gathers in Abu Dhabi for ADIPEC 2022, it will be just one week before COP27 in Egypt and one year before COP28 takes place in Abu Dhabi. ADIPEC will provide an important platform for industry to demonstrate the climate action, investment and innovation helping accelerate the transition and deliver decarbonisation.

With input from global industry leaders and policymakers, leading innovators and future talent, ADIPEC 2022 will continue to spark ingenuity and facilitate cooperation to help industry deliver more energy, with fewer emissions. "

# THE MIDDLE EAST ENERGY CLUB PRESENTS: THE ADIPEC LEADERSHIP ROUNDTABLES

## DEFINING THE GLOBAL ENERGY FUTURE

The invitation-only ADIPEC Leadership Roundtables gather Ministers, C-level industry executives and policymakers to explore the new ideas and transformative thinking, shaping the energy sector. As an important cornerstone of ADIPEC's strategic conference programme, the Leadership Roundtables provide the thought leadership and direction to drive growth over the next decade and define the global energy future.

### WHY ATTEND?

- Connect in person with ministers, CEOs and global leaders at a state-of-the-art venue that provides unparalleled access for networking and business opportunities.
- Sessions are facilitated by an experienced moderator and hosted by an industry thought leader, ensuring discussions remain lively, offering fresh, objective perspectives on addressing the climate challenge and driving growth over the next decade.
- Limited to 30 delegates, each of the 90-minute roundtable sessions are held under Chatham House Rule.

### TOPICS TO BE ADDRESSED IN 2022:

- ENSURING EUROPEAN ENERGY SECURITY: OPPORTUNITIES AND CHALLENGES
- A NEW ENERGY WORLD
- DIGITAL TRANSFORMATION IN THE PURSUIT OF NET-ZERO
- THE GLOBAL METHANE CHALLENGE
- THE ROLE OF CIRCULAR ECONOMY IN THE ENERGY INDUSTRY
- THE NEW BUSINESS MODELS OF NOCS AND IOCS: DRIVING A LOW-CARBON WORLD
- CROSS-SECTOR PARTNERSHIPS: MOBILITY, ENERGY TRANSITION AND CROSS-SECTOR INVESTING
- THE CLEAN HYDROGEN OPPORTUNITY
