WELCOME MESSAGE

Dear Industry Colleague,

Welcome to Abu Dhabi and ADIPEC 2022.

Let me begin by thanking you for joining us this year. Your participation is integral to ADIPEC's success, and the team and I are extremely excited to open our doors to you once again.

This year's conference is taking place at a significant moment for the energy industry. Now, more than ever, people need to come together and identify the solutions that will enable us to deliver a progressive and pragmatic energy transition. ADIPEC is proud to provide the industry with an inclusive platform to achieve this.

The energy trilemma poses a complex set of challenges, and ADIPEC is the ideal place to identify the solutions. From the innovations displayed across our exhibition floor, to the contributions from energy leaders throughout the strategic conference, this year's event will once again provide a window into the future of the energy industry.

Taking place immediately before COP returns to the Middle East we have invited the entire energy value chain to showcase the progress it has already made towards Net Zero, and to present its plans for the months, years, and decades to come.

ADIPEC 2022 will host attendees from over 160 countries and house 28 country pavilions, helping to foster the international cooperation that will be essential in advancing a pragmatic, inclusive, and equitable energy transition, as well as laying the groundwork for the commitments that will be made at COP27.

I have no doubt it's going to be a productive and engaging week for everyone in attendance, and on behalf of dmg events and our event host, ADNOC, I wish you every success for ADIPEC 2022.

Christopher Hudson
President - dmg events

WELCOME TO ADIPEC

As the world's most influential gathering of energy industry professionals, ADIPEC 2022, hosted by the Abu Dhabi National Company (ADNOC), will address the key issues surrounding the trilemma of sustainability, affordability, and security of supply.

Strategically taking place ahead of COP27, the event will bring together over 1,200 global policy makers, CEOs, innovators, thought leaders and industry experts to play an important role in developing the ideas and solutions that will shape the industry's response to the realities of energy transition.

ADIPEC not only facilitates high-level strategic dialogues, but will also provide a platform for the global energy ecosystem to collaborate, engage with the latest innovations, create new finance and partnership frameworks, develop actionable strategies and opportunities to unlock the real value of a decarbonised future.

With an estimated 150,000 attendees projected to visit, this year's in-person edition of ADIPEC has a lot to offer. As a result, we have designed this dedicated Visitor Show Planner that will help you plan your visit and provide information on:

- Event timings
- Event checklist
- Venue map and locations of participating NOCs, IOCs, NECs, IECs and participating country pavilions
- Event features and newly added Decarbonisation Zone
- Mobile App and meetings programme
- Information pertaining to entry requirements, hotels, travel partners and shuttle bus routes

FAQs

What is the AIHosn app?

AIHosn is the UAE's official COVID-19 app. It is used to display health status, PCR tests, contact tracing, travel information, vaccination record and unique QR code.

How can I get the AIHosn app?

You can download the AIHosn app from the App Store, Google Play Store, Huawei AppGallery and the Galaxy Store free of charge. The app works on smartphones running Android and iOS.

However, to complete the download of the AIHosn app, you will need a Unified Identification Number (UID). Click here for more information.

As an alternative to using the AIHosn app, visit m.aihosnapp.ae to check your latest PCR test result.

How do I register for the AIHosn app?

Before departing for Abu Dhabi, visitors can register in the "register arrivals" section on the **Federal Authority for Identity and Citizenship ICA** app or website (www.ica.gov.ae), submit the required information on the form, and upload international vaccination certificates. Visitors will receive a text message that includes a link to download AIHosn app.

On arrival in Abu Dhabi, visitors will receive a Unified Identification Number (UID) <https://www.gdrfad.gov.ae/en/find-my-uid> through the application or the Federal Authority for Identity and Citizenship ICA (www.ica.gov.ae) website that is linked to the phone number registered when having a PCR test in the UAE.

Visitors will then receive a One Time Password to complete the registration on the AIHosn app, using the UID and phone number used for ICA registration or when taking a PCR test in the UAE. The AIHosn app is used to display your health status, vaccination information, PCR test results, travel information and your unique QR code.

Is the AIHosn app free of charge?

Yes. The AIHosn app is free of charge and can be accessed from the App Store, Google Play Store, Huawei AppGallery and the Galaxy Store.

Will the AIHosn app consume my data?

The app is "whitelisted" by UAE telecommunications companies Du, Etisalat and Virgin, which means it does not use your data.

*This information is accurate as of 24th October 2022. Please note, the entry requirements are subject to change. Please make sure to view the entry guidelines before planning your visit.

2022 ADIPEC CONFERENCES

4 Days of Business-Critical Knowledge Exchange: From Strategic Direction to Technical Insights

The ADIPEC agenda provides strategic and technical insights by gathering over 1,200 global policymakers, energy CEOs, and industry professionals to discuss key trends shaping the future of energy; the challenges and opportunities of the energy transition, geopolitical shifts, new finance and partnership frameworks, and the latest technological developments.

ADIPEC CONFERENCES
IN NUMBERS

STRATEGIC CONFERENCE

Securing affordable and clean energy systems

ADIPEC 2022 will bring together policy makers, energy leaders and industry professionals for an unparalleled opportunity to share insights on the latest trends affecting the global energy ecosystem including geopolitical shifts, the evolving global economy, energy supply and next generation energy solutions.

With the return of the Conference of Parties (COP) to the Middle East by way of COP27 and COP28, ADIPEC is positioned to advance the industry's ambitions in relation to climate change, the energy transition and net-zero energy systems along with the business and operating model changes required to support them. Recognising accompanying talent agendas, innovation ambitions and a commitment to authentic leadership are equally critical in ensuring success as the energy market pivots more quickly than ever before.

STRATEGIC CONFERENCE THEMES:

The long-term impacts of geopolitics on the global economy and energy industry

The road to COP27 and COP28

An industry transitioning: adapting to the new fundamentals of supply, low carbon and new energy solutions

Innovation and the energy transition: pioneering a new era of technology development

The new management agenda: future workforce and the leaders of tomorrow

HYDROGEN STRATEGIC PROGRAMME TOPICS:

Hydrogen: reality, promise and prospect

Repowering Europe and the world with clean energy systems

The practical challenge of developing hydrogen in times of economic uncertainty

Increasing hydrogen demand across multiple industry sectors

Hydrogen: a new vector of trade in energy from the Middle East

Scaling up projects: a roadmap to securing sufficient supply and demand

OTHER CONFERENCES AT A GLANCE

Offshore & Marine Conference

The ADIPEC 2022 Offshore and Marine Conference will bring together industry leaders, influencers and decision-makers from the global offshore and marine supply chain, to share their insights and perspectives on the challenges and opportunities facing the industry.

Smart Manufacturing Conferences

The ADIPEC Smart Manufacturing Conferences will help set the agenda for the next successful phase of growth in the energy and manufacturing industries. With a strategic and technical element, the conference programmes will bridge the gap between energy, manufacturing and high-tech sectors to accelerate economic development and diversification.

The Smart Manufacturing Conferences include the 1 Day Smart Manufacturing Strategic Conference and the 4 Day free-to-attend Smart Manufacturing Technical Conference.

The ADIPEC Forum for Diversity, Equity and Inclusion

ADIPEC 2022's Forum for Diversity, Equity and Inclusion will focus on three key themes and how they play a part in the current challenges the industry is facing. As employees recalibrate the nature of work and what they want from employers, they are also tracking examples of their organisation's DEI commitments, including gender parity, mentorship, diversity across leadership, women's well-being and more – all of which will be addressed in this year's programme.

Technical Conference
Organised By
SPE
Society of Petroleum Engineers

Technical Conference

The ADIPEC Technical Conference is the world's largest technical meeting place for oil, gas and energy engineers worldwide, providing unprecedented access to the latest industry knowledge, technical expertise, applications, products, solutions and services. Organised by the Society of Petroleum Engineers, the technical conference sessions, cover a wide and diverse range of technical and engineering insights that will drive ideas, overcome challenges, create new value and highlight innovation.

Downstream Technical Conference

The ADIPEC Downstream Technical Conference brings together downstream industry players to discover the newest global market trends, investment opportunities and growth trajectory that will help boost the competitive advantage of refining and petrochemical businesses in the face of the energy transition.
